5 Day Summer University'22
"Human rights for everyone:
HUMANITY-TECHNOLOGY-LAW"

The rapid development of technology – which has become an integral part of our lives – is changing and shaping a new system of human rights and international law. The issues of ensuring and protecting human rights and proper legal regulation arise in a variety of areas: from the spheres of politics, administration and justice, the spheres of peace and global security to the spheres of private and civic engagement, business activities and financial markets

The Summer University'22 will focus on law and humanity as core issues for all as the main regulatory mechanisms of the new technological reality
